

SAMUEL J. TUSICK

724-601-4365 | samtusick@outlook.com | www.linkedin.com/in/samuel-tusick

EDUCATION

Florida Gulf Coast University

Fort Myers, FL

Bachelor of Science in Software Engineering

Expected May 2027

- **In-Major GPA:** 3.84 | Dean's List (2023 and 2025)
- **Relevant Coursework:** Data Structures and Algorithms, Digital Systems and Architecture, Computer Security, Programming II, Intro to Cloud Computing, Software Engineering Fundamentals

PROJECTS

NHL Stat Scraper – Python, Flask, Selenium, React, Vite

- Designed and built a full-stack data platform that scrapes, normalizes and serves NHL player statistics through RESTful APIs.
- Implemented a Flask backend with parameterized endpoints to support dynamic queries by stat category, game type, and result count.
- Automated data collection using Selenium, handling dynamic page rendering and structured data extraction.
- Developed a React frontend with Vite enabling users to interactively explore datasets with loading and error states.

Personal Portfolio Website – React, Vite, JavaScript, CSS

- Rebuilt a personal portfolio site using React component architecture to improve maintainability and scalability.
- Implemented responsive layouts and reusable UI components to showcase projects and research across devices.

RELEVANT EXPERIENCE

FGCU Dendritic Institute

On-site

Student Research Assistant

March 2025- Present

- Contributed to the development of agentic AI systems supporting educational and mentoring workflows.
- Assisted in building and testing custom AI agents for students, mentors, and third-party partners.
- Collaborated with faculty to design hands-on AI curriculum and tooling for a Summer Academy and year-round programs.
- Collaborated with faculty and researchers to design and prototype AI-driven tools supporting real-world educational and mentoring workflows.

Princeton University

Remote

Research Assistant – Computational Usage in Different Fields of Study

February 2023 - June 2023

- Supported a research project analyzing computational tool usage across academic disciplines.
- Assisted in organizing, transcribing, and analyzing data from 300+ interviews with researchers and professionals.
- Helped streamline data collection workflows through improved documentation and organization processes.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, JavaScript, HTML, CSS
- **Tools and Technologies:** Visual Studio Code, CLion, Git, Selenium, React, Vite, Flask

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate

EXTRACURRICULARS

Computer Science & Software Engineering Club | Member

August 2024 - Present
